

THE ARCHITECTS ALLIANCE

MEMBERSHIP GUIDE

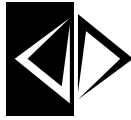

WWW.ARCHITECTS-ALLIANCE.COM

WHO WE ARE

The Architects Alliance (TAA) is a community of progressive Kenyan Architects, spearheading the profession's crucial role of pressing for a better society. TAA offers leadership and lends expertise towards the attainment of safe, healthy, and sustainable physical environments.

The Architects Alliance was formed by like-minded seasoned practicing Architects with over 20 years' experience. TAA is more than a professional organization, but a community of Architects who are actively working to make a positive impact on society, beyond matters-built environment, to contributing to the betterment of the lives of Kenyans. TAA believes that Architects have a wider role in society and can help effect positive change that contributes to alleviating many of the ills that affects our societies in Kenya, right across the socio-economic spectrum.

OUR OBJECTIVES

- Establish TAA Architects as thought leaders on building and built environment related matters.
- Advocating for best practices for architects.
- Create public awareness on importance of architectural practice.
- Engage meaningfully with local, regional, and global institutions to establish mutually beneficial networks.
- Create professional growth forums and capacity building.
- Select, aggregate, collate and make available intellectual resources for all architects so that they use them for greater success and increased impact in society.
- Influence policy and decision making.
